

port tenants, such as airlines, concessionaires, and fixed base operators (FBOs). Each committee is composed of no more than 20 members, to include representatives from local municipalities, tenants and pilot organizations, and regional tourism organizations, among others.

The combined ABQ SAMP planning process began in the fall of 2014 and is expected to conclude in the fall of 2016.

PUBLIC PARTICIPATION

The Albuquerque International Sunport Sustainable Airport Master Plan is of interest to many within the region. This includes local citizens, community organizations, airport users, airport tenants, area-wide planning agencies, and aviation organizations. As the Airport is a strategic component of the regional, state, and national aviation systems, the Sunport Master Plan is of importance to both state and federal agencies responsible for overseeing air transportation.

The City has identified a group of community members and aviation interest groups (i.e., the TC and AC) to act in an advisory role in the development of the Albuquerque Sustainable Airport Master Plan. To assist in the review process, draft working papers will be prepared at various milestones in the planning process. The working paper process allows for timely input and review during each step of the Airport Master Plan process to ensure that all planning issues are fully addressed as the recommended program develops. Members of the TC and AC will review draft working papers and provide comments throughout the process to help ensure that a realistic, viable plan is developed.

A series of public information workshops will also be held as part of the coordination effort. The public information workshops are designed to allow any and all interested persons to become informed and provide input concerning the Albuquerque Sustainable Airport Master Plan process. Notices of meeting times and locations will be advertised through local media, as well as social media outlets. The draft working papers will be available to the public at www.theSunport.airportstudy.com.
